

## SPORT & ALLEVAMENTO

### SPORT & BREEDING

- Caracole de la Roque (S.F. 2012 - Zandor Z x Kannan) e and Karl Cook.

I Giochi di Parigi hanno ribadito l'importanza della connessione tra l'allevamento e lo sport

*The Paris Olympic Games have confirmed the importance of the connection between breeding and the sport*

<b>Flynn FRH - Hann. 2014</b>	DRESSAGE
Fahrenheit / Sun On Me (Sir Oldenburg I x Davignon I)	

Parigi è stata un'eccezionale vetrina per l'allevamento che ancora una volta ha potuto ribadire tutta la sua fondamentale importanza nella filiera del cavallo sportivo. Certo, la maggior parte dei 211 cavalli al via nel salto ostacoli, nel dressage e nel concorso completo, erano soggetti già affermati grazie alle loro carriere ad alti livelli, ma resta il fatto che questi 'fortunati' cavalli, insieme ai rispettivi allevatori e proprietari, possono ora vantare, a prescindere dal risultato ottenuto sul campo, la partecipazione a un'Olimpiade. E non è cosa da poco considerato che la cadenza quadriennale dei Giochi offre una seconda chance a pochi, pochissimi soggetti. Su tutto e tutti, però, è stata la 'horse industry', della quale questi eccezionali cavalli sono espressione, a sfruttare al meglio l'enorme cassa di risonanza offerta da un evento di massima caratura come quello vissuto alla Reggia di Versailles.

Paris has been an exceptional showcase for breeding, which has once again been able to reaffirm its fundamental importance in the sports horse industry. Admittedly, most of the 211 horses competing in show jumping, dressage and three-day eventing were already well known thanks to their high-level careers, but the fact remains that these 'fortunate' horses, together with their respective breeders, and owners, can now boast, regardless of their results on the field, participation in an Olympic Games. And this is no small feat considering that the Games are held only once every four years and therefore offer a very limited number of horses a second chance. More than everything and everyone, however, it is the horse industry, of which these exceptional horses are an expression, that has benefitted the most from the huge resonance chamber provided by an event of the highest level such as the one held at the Palace of Versailles.

ULTIMATE - TB 1941

Grand Veneur / Le Tot de Semilly

TOP SIRE E PROSECUTORI

Se sono stati soltanto **diciassette i cavalli** riconducibili a sole **otto linee di sangue femminili**, in ascendenza maschile la quasi totalità dei cavalli in gara alle ultime Olimpiadi è concentrata in poche linee. Sempre le stesse, si dirà, ma comunque sempre più interessanti per il predominate impatto degli stalloni 'prosecutori' rispetto ai capostipiti. Anzi, per la forte pressione selettiva alla quale il cavallo sportivo è sottoposto, molti di questi 'prosecutori' vengono man mano superati dai loro migliori (pochi) figli, tanto da suddividere ulteriormente molte di queste linee. Emblematico, al proposito, è il caso dell'holstein Diarado, stallone capolista per numero di figli in gara a Parigi con ben cinque soggetti dei quali tre nel completo. Ebbene, Diarado è un 'prosecutore' di terza generazione rispetto a suo padre Diamant de Semilly, comunque presente con due figli, e suo nonno Le Tot de Semilly.

SIRES AND 'SUCCESSORS'

*While only seventeen horses can be traced back to just eight female bloodlines, the male ancestry of almost all the horses competing at these last Olympics is concentrated in just a few sire lines. They are always the same ones, one might add, but are in any case becoming increasingly interesting due to the greater impact of 'successor' stallions compared to the foundation sires. In fact, because of the strong selective pressure to which sport horses are subjected, many of these 'successors' are gradually being surpassed by their best (few) offspring, so much so that many of these lines are being further subdivided. In this regard, the case of Holstein stallion Diarado is emblematic: he was the sire with the most offspring competing in Paris, indeed no less than five, three of which in eventing. Well, Diarado is a third-generation 'successor' after his sire Diamant de Semilly, also there with two sons, and his grandsire Le Tot de Semilly.*

- JL Dublin (Holst. 2011 - Diarado x Canto) e and Tom McEwen.

## CLASSE DI FERRO

In questa edizione dei Giochi i cavalli al debutto in una delle tre discipline olimpiche sono stati 174. Di contro 37 erano almeno alla loro seconda partecipazione, cosa che la dice lunga su quanto sia difficile ripetersi ad alti livelli e soprattutto rimanere a lungo nel gruppo dei migliori. Probabilmente alcuni di questi 37 'non esordienti' sono stati in qualche modo agevolati dai soli tre anni di distanza dai Giochi di Tokyo, non certo però Buriel K.H. e Rokfeller de Pleville Bois Margot. Con quella di Parigi, Buriel K.H. un castrone KWPN nato nel 2006,

## THE TOUGHEST OF THE TOUGH

*In this edition of the Games, there were 174 horses making their debut in one of the three Olympic disciplines. 37 were instead taking part in at least their second Games, which says a lot about how difficult it is to stay at such a high level and in particular in the top group for a long period of time. Probably some of these 37 'non-rookies' were somewhat facilitated by the fact that it had only been three years since the Tokyo Games, but this does not apply Buriel K.H. and Rokfeller de Pleville Bois Margot. In Paris, Buriel K.H., a KWPN gelding born*

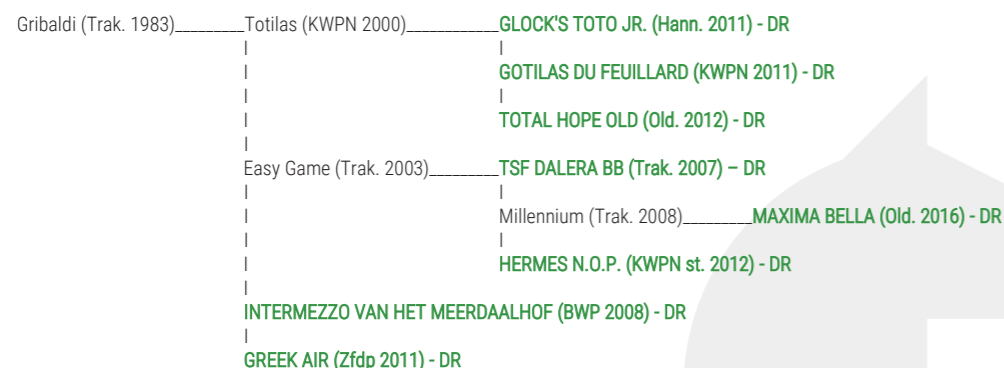

- Buriel K.H. (KWPN 2006 - Osmium x Krack C) e and Juliette Ramel.

ha, infatti, preso parte alla sua terza Olimpiade dopo Rio 2016 e Tokyo 2021 sotto la sella della svedese Juliette Ramel. Un record! Due, invece, le partecipazioni del Sella Francese Rokfeller de Pleville Bois Margot, castrone classe 2005, che prima di Parigi aveva affrontato la sua prima Olimpiade otto anni fa a Rio 2016 ancora con lo spagnolo Eduardo Alvarez Aznar. Rokfeller è uno dei cinque cavalli che hanno gareggiato a 19 anni. Il più anziano è stato però Forever Young Wundermaske che, alla veneranda (ed è il caso di dire esagerata...) età di 21 anni, si è presentato al via nel completo con l'equadoregno Ronald Zabala Goetschel.

*in 2006, was actually taking part in his third Olympics after Rio 2016 and Tokyo 2021 under the saddle of Swedish rider Juliette Ramel. A record! These were instead the second Olympic Games for Selle Français Rokfeller de Pleville Bois Margot, a gelding born in 2005, that before Paris had competed in his first Olympics in Rio 2016 also with Spanish rider Eduardo Alvarez Aznar. Rokfeller is one of five horses to have competed at the age of 19. The eldest, however, was Forever Young Wundermaske that, at the venerable (and it is fair to say exaggerated...) age of 21, competed in eventing with Ecuadorian rider Ronald Zabala Goetschel.*

PASTEUR - TB 1963

- Hermes N.O.P. (KWPN 2012 - Easy Game x Flemmingh) e and Dinja Van Liere.

L'ETÀ DEI CAVALLI A PARIGI 2024  
HORSES COMPETING IN PARIS 2024 BY THEIR AGE

Year	Tot.	JUMP.	DR.	EV.

2003	1	-	-	1

LINEE DA MEDAGLIA

Se c'è una linea materna che è uscita trionfante dai Giochi di Parigi 2024, questa è sicuramente la **Famille Selle Français 93**. Unica ad essere presente con tre cavalli in gara, ne ha infatti avuti due a medaglia nel salto ostacoli. Due femmine eccezionali, Dynamix de Belheme, argento individuale con Steve Guerdat, e Caracole de la Roque, argento a squadre con gli USA montata da Karl Cook. Tanta roba!

In linea maschile Dynamix de Belheme discende da Rantzau attraverso alcuni dei più importanti stalloni 'prosecutori' di Cor de la Bryere, così come i vincitori delle due medaglie d'oro individuali nel salto ostacoli e nel completo, il grigio westfalen Checker 47 (da Comme Il Faut) e l'hannoverano Fischer Chipmunk FRH (da Contendro I), rispettivamente con i tedeschi Christian Kukuk e Michael Jung. Nel salto ostacoli questa linea può però vantare anche due dei tre cavalli oro a squadre per la Gran Bretagna: Hello Jefferson (da Cooper vd Heffinck) con Scott Brash e Romeo 88 (da Contact vd Heffinck) con Harry Charles. Nel dressage la linea maschile di Pasteur è quella ha messo in mostra una solidità eccezionale

MEDAL-WINNING SIRE LINES

*If there is one dam line that emerged triumphant from the Paris 2024 Games, it is certainly that of **Famille Selle Français 93**. The only one with three horses competing at the Games, it actually had two of them winning medals in show jumping. Two outstanding mares, Dynamix de Belheme, individual silver with Steve Guerdat and Caracole de la Roque, team silver for the USA with Karl Cook. A great achievement!*

*In the sire line, Dynamix de Belheme is a descendant of Rantzau through some of the most important stallions 'successors' of Cor de la Bryere, like the winners of the two individual gold medals in show jumping and eventing, Westphalian grey Checker 47 (by Comme Il Faut) and Hanoverian Fischer Chipmunk FRH (by Contendro I) with German riders Christian Kukuk and Michael Jung respectively. In show jumping, however, this line can also boast two of the three team gold medal horses for Great Britain: Hello Jefferson (by Cooper vd Heffinck) with Scott Brash and Romeo 88 (by Contact vd Heffinck) with Harry Charles. In dressage, Pasteur's sire line is the one that showed exceptional solidity through*

attraverso quel grande performer che è stato Gribaldi. Oltre a due figli diretti, e a tre nati a loro volta da Totilas, Gribaldi a Parigi è stato illustrato dalla discendenza di Easy Game, stallone che ne ha già raccolto la pesante eredità. Easy Game è, infatti, padre della regina della disciplina, l'imbattibile TSF Dalera BB vincitrice

*the great performer that was Gribaldi. In addition to two direct sons, and three more by Totilas, Gribaldi's presence was felt in Paris through the offspring of Easy Game, a stallion that has already taken up his weighty legacy. Easy Game is in fact the sire of the queen of this discipline, the unbeatable TSF Dalera BB, winner of two more*

- Zuccero HV (Holst. 2012 - Zirocco Blue VDL x Caretino) e and Rolf-Göran Bengtsson.

ancora di due medaglie con la tedesca Jessica von Bredow-Werndl e dello stallone Hermes N.O.P., quarto individuale e a squadre con l'olandese Dinja van Liere, oltre che nonno di uno dei due cavalli più giovani al via, l'otto anni oldenburg Maxima Bella (da Millennium) della polacca Sandra Sysojeva. •

*medals with German rider Jessica von Bredow-Werndl and of stallion Hermes N.O.P., individual and team fourth with Dutch rider Dinja van Liere, in addition to being grandsire of one of the two youngest horses in the competition, 8-year-old Oldenburg Maxima Bella (by Millennium) under the saddle of Polish rider Sandra Sysojeva. •*
